Disability Support - Rights and Responsibilities

Staff
All staff take responsibility to ensure equity for students with disabilities and discharge their duties in a non-discriminatory manner.

Staff rights
Staff have a right to expect that students seeking reasonable adjustments to the learning program will be willing to discuss their specific requirements (with assistance if required) and share responsibility in negotiating solutions.

Staff responsibilities
Staff are encouraged to undertake development activities which ensure they become familiar with the general requirements of students who have a disability.

Staff are affirming of and value students and create a climate that encourages students to approach them to discuss issues impacting upon their studies that arise from their disabilities.

While many students with disabilities may work through the Coordinator at the College, others may approach teaching staff directly. All staff can demonstrate their willingness to make adjustments for students by inviting them to discuss their particular requirements in private at a subsequent time.

The College requires that any arrangements made for reasonable adjustments are formally notified to the Coordinator and manager.

Teaching staff and trainers need to respond to the particular requirements of students who have a disability by making reasonable adjustments within a flexible curriculum.

Staff need to understand and constructively manage behaviour arising from disability which impacts upon others in the class.

Students
Students with disabilities have the right to:

- Equitable access to courses, programs, services, activities and facilities at the College
- Reasonable and appropriate accommodations, academic adjustments, and/or additional support services
- Confidentiality of information pertaining to their disability
- Information to be made reasonably available in accessible formats
- Be treated with dignity and respect.
- The institution will establish an inclusive educational environment
- They can undertake their studies free from discrimination and harassment
- Staff will anticipate their need for reasonable adjustment, invite them to discuss their requirements, and treat the request promptly and seriously
- Their views will be sought in the development and review of institutional policies, procedures and practices affecting their lives at the tertiary institution
- Where required, they may be assisted by independent advocates
• Staff will be given appropriate training to become familiar with good practices for meeting
the requirements of the students
• They will be given the opportunity to develop skills which will enable them to obtain
maximum benefit from available services.

Students, and where applicable, prospective students with disabilities, have a
responsibility to provide information which assists the College in the timely planning and
implementation of appropriate services by:
• Identify themselves at enrolment as an individual with a disability when seeking an
adjustment or service on the basis of their disability
• Provide documentation from an acceptable professional source that verifies the nature of
the disability and impact on access to the learning environment and/or experiences
• Follow the procedures for obtaining reasonable services as outlined in student handbook
• Treat staff at the College with dignity and respect.
• Notifying and verifying their requirements to the extent necessary to ensure an
appropriate response
• Being proactive in advising the College of the difficulties they encounter in accessing
aspects of the life at the College and how to overcome those difficulties.
• Ensuring that specialised services provided are utilised in a fair and effective manner
• Respect the efforts of others, observing conditions placed on adjustments made
• Advising absences to obviate unnecessary attendance of service personnel such as
interpreters.
